FEDERALS KILLING WOUNDED REBELS

TERACRUZ, Mex., Oct. 7 .- A report on affairs at the capital brought by Nelson O'Shaughnessy, charge Mexico City, was laid before John Lind, the personal representative of president Wilson, In an overnight conference. It was said he brought no rostate picture of conditions, but reported assurances from the national palace that fair elections would be held and early pacification of the country accomplished. Mr. O'Shanghnessy re-

turned directly to the capital, accompanied by his wife, who had just returned from Europe.

Mr. Lind will remain in Veracruz Unless invited by the Mexican government or instructed by president Wilson, he will have no direct communication with the Mexican administration. If he has any representations to make the probably will communicate them to the embassy. Indications are, however,

he probably will communicate them to the embassy. Indications are, however, that there will be no further communi-cations either direct of indirect. A number of mining men who arrived here today from the state of Durango assert that the federal troops there have been in pursuance of their in-structions to kill all wounded rebells and that one man was draged from a hospital immediately after one of his legs had been amputated, placed before a firing squad and executed.

GEN. HUERTA HAS WHOLE NEW CABINET

McGlone was called to the stand. He said he had been private secretary to Thomas F. Ryan for 12 years. He said he talked with governor Sulzer in October, 1912. "I went to Sulzer's office," said McGlone. "I said to him something about the campaign. I said there was no question about his election. He said no, but he wanted to make a personal campaign. I said the organisation ought to supply the money for his campaign through the state. He said he needed mome money. I told him I could not give it to him without consulting with somebody else. I spoke to somebody olse about it and we agreed to give him a sum of money, which we did after he got back. He said he wanted \$1500 or as much as he could get."

Mr. Ryan was then recalled and questioned regarding a conversation he had with governor Sulzer. He said that he saw the governor alone at his New York office.

Wilson to Discuss Canal at Southern Commercial Congress

MANY NOTABLES ARE TO ATTEND

(By Frederic J. Haskin.) ASHINGTON, D. C., Oct. 7 .-President Woodrow Wilson is expected to put the world on notice relative to his policy on the Panama canal, when the Southern Commercial congress meets in Mobile, Ala.,

on Oct. 27. He will tell the congress about the canal in our international relations and this promises to be one of his most notable speeches as he will discuss the questions that will arise out of the opening of the canal.

The Be Panama Meeting.

The fifth annual meeting of the Southern Commercial congress, which will convene in Mobile. Air., on October 27, bids fair to become the most notable commercial meeting ever held within the confines of the southern states. It will be very much a "Panama Canal Meeting," for it will be especially characterized by an effort to assess the possibilities of the big waterway and to point the way to a proper capitalization of the advantages it will afford. Every other meeting that had been planned for the fall that might in any way interfere with it has been called off, and the forces behind them have made common cause with the leaders of the Southern Commercial congress to make Mobile the one great gathering place for all the forces of the south to rally for a great movement toward a new era of commercial and civic growth. Even the proposed Pan-American Commercial conference, which was to be held by the twenty-two Pan-American republics, under the auspices of the Pan-American union, has been postponed, and its work mercyed with that of the Mobile congress.

Will Visit the Canal. To Be Panama Meeting.

Will Visit the Canal. The members of the congress who desire to do so, will be able to take part in a great South American Business Men's expedition. Under the particular and the Pan-American union, 52 elected guests will make any south the department of agriculture and the Pan-American union, 52 elected guests will make any south to be the first south to be a special study to Latin-American trade conditions. In addition to this there will be a special trip to the Panama canal open to all members, and it is the hope of the officials of the congress that they may be able to be the first organization to go through the first organization to go through

the canal.
The other matter of unusual importgress will be the report of the American Commission for the study of European cooperation. To show the people of the south how to help themselves and how to aid one shother is one of primary aims of the congress, and has borrowed some remarkable

Batteries-New York, Marquard, Crandall, Tesreau Philadelphia, Bender and Schang.

Polo Grounds, N. Y., Oct. 7. - The Philadelphia Athletics won the first game of the world's championship series from the New York Giants today by the score of 6 to 4.

The game was played in poor weather, the clouds hanging low and threatening rain. Notwithstanding this, 40,000 people witnessed the game. Marquard started in pitching for New York, but was taken out of the box after the fifth inning and Crandall was sent in to relieve him. Bender pitched for the visitors.

"Homerun" Baker, of the Athletics, lived up to his name and knocked one that took him around all the bags in the fifth inning. It was immediately after this that Marquard was removed. Tesreau succeeded Crandall in the box in the eighth.

The crowds began to gather early in the day and the grandstand seemed packed at noon, but the trolley cars and the automobiles continued to bring people until the game was actually opened.

Marquard and Meyers were anounced as batteries for New Yor. Bender and Schang were the batteries or Philadelphia.

Two Leased Wires to World's Series Ball Games Serve Herald Fans

OT content with serving the fans with one leased wire—its regular Associated Press report—The El Paso Herald has had a second wire strung into the ball parks where the world's championship series of games are being played. This second wire is a direct Western Union wire and cannot be beaten for quickness. The Herald has contracted with the Western Union for this wire with the understanding that it will beat anything else into El Paso with the news and it is scarcely necessary to say that it is within the province of the company to "put over" the news as contracted for.

The Associated Press leased wire operates direct from the baseball park where the game is being played. Both these reports are taken by operators on the balcony of The Herald building, directly in view of the fans, and the announcements are instantaneous. A man calls the game play by play over the shoulder of the Western Union operator as fast as the plays are made on the ball field. The Western Union flashes each play to The Herald and here again, another man calls it as the operator receives it. Can you beat that for service? It is only necessary to watch the report to ascertain the sort of service The Herald is giving. The Herald invites a comparison with other services. That's all.

The Associated Press wire is just as fast as the Western Union wire, but as it will contain more details of the game, The Herald decided to put in the Western Union wire to insure quick service on the plays and use the A. P. wire for additional details. The scores are posted on a big blackboard on The Herald building, beside the operators.

For the news first, The El Paso Herald leads, always
